All items can be purchased from my store: www.stampingjo.com/store

Measurements:

- Whisper White Base – 5½" x 8½"
- Whisper White Mat – 3¾" x 5"
- Red Glimmer Paper - 4" x 5¼"

Instructions:

1. Using the Big Shot, dry emboss the Whisper White mat using the Northern Flurry Embossing Folder. Stamp "Merry Christmas" in the bottom right corner using Real Red ink. Set aside.
2. Using the Big Shot & Snowflake Card Thinlit pieces, cut the large snowflake and the small snowflake from the *center* of the Red Glimmer. (*The dies you cut out will not be seen as you'll be covering this with the Whisper White mat.*) Add a piece of wax paper between your framelit and the card stock so that the image releases from the die.
3. Layer the largest snowflake above the stamped sentiment using Glue Dots. Adhere the smaller snowflake to the larger snowflake using a Dimensional. Place a large Rhinestone in the center of the small snowflake – this will help cover up the Dimensional.
4. Adhere the Red Glimmer paper to the Whisper White folded base card. Adhere the Whisper White mat to the Red Glimmer paper using Dimensionals.
5. Adhere small Rhinestones in the center of the embossed snowflakes if desired.
