

Envelope-Style Card Box Tutorial

1. The Simply Scored Scoring Tool has become a fan favorite, and it just got better with the addition of the Diagonal Plate!

The Diagonal Plate sets on the Simply Scored scoring surface making one multipurpose tool!

2. The back of the Diagonal Plate has an arrow at the top. Point the arrow towards top of Simply Scored tool and the same 1/8" score lines work on the Diagonal Plate! The rubbery grips on back hold it firmly in place for scoring and allows you to easily add or remove the Diagonal Plate.

3. The Simply Scored and the Diagonal Plate fit paper up to 12" x 12" and have score lines at every 1/8" so your creativity has no limits!

Making boxes and envelopes is easier and more fun than ever!

4. To create an Envelope-Style Card Box using the Simply Scored and Diagonal Plate, begin by scoring 9-1/2" x 9-1/2" card stock at 4-1/4" & 5-1/4", rotate card stock 180 degrees, score again at same measurements.

5. Rotate the card stock 90 degrees.
Score at 3-1/4" and 4-1/4". Rotate card stock 180 degrees and score at the same measurements. Also score only this one side at 6-1/2".

6. Use Paper Snips to cut out the 6 triangular sections shown.

Cut along the one line scored at 6-1/2" using Paper Snips or Paper Trimmer to create the bottom flap of the box.

7. Add Sticky Strip to the very edge of the bottom flap and the small side flaps.

Add 1-1/2" of Sticky Strip to the bottom half of the bottom diagonal edge of the side flaps.

8. Fold up bottom flap and adhere small flaps to the inside of the smaller scored section.

9. Fold side flaps in towards center so the tips just meet. Press from inside to adhere.

To close box slide tip of top flap under top edge of bottom flap.
